START USING WIRELESS WEFIE STICK

1) Charging the detachable shutter

Connect your detachable shutter to the USB adapter using the provided charging cable. The red LED light will switch on when charging, then the LED will go off when the battery is fully charged.

2) Bluetooth pairing and connecting

Step 1: Press and hold detachable shutter button until blue LED flashes.

Step 2: Go to your mobile's Bluetooth setting, select 'Valore AC06' under the device list.

To turn off the Bluetooth, press and hold on the shutter button for 3 seconds until the blue LED light goes off to turn off.

Note: If the pairing is not successful, please turn off detachable shutter first and then re-pair again. After pairing is successful, paired devices will remember each other. Unless pairing information is deleted because of new pairing, no need to pair when using the next time. If you want to pair the detachable shutter with other devices, please turn off Bluetooth function of existing source device, and pair the wireless selfie stick with the new device according to steps mentioned above.

3) Installing of detachable shutter belt

4) Loosen and tighten of wefie stick

5) To take pictures

Attach your mobile to the mobile holder and adjust to desirable length and angle.

Click on the camera icon on the shutter button to take pictures.
