UNDERSTANDING THE PRODUCT

- ① USB charging port
- ② Multi-function button (MFB)
- ③ Microphone
- ④ Volume + / Next song
- ⑤ Volume - / Previous song
- ⑥ LED indicator

START USING THE WIRELESS EARPHONE

1) Charging the wireless earphone

- a) Ensure the earphone is off before charging.
- b) Connect the micro USB end of the charging cable to the Micro USB charging port and the standard USB end to a charging port.
- c) The LED indicator will be red whilst charging. It will turn off when it is fully charged.

Note: Please charge the earphone for at least 8 hours before first use. Please make sure that the earphone is switched off when charging is in progress.

2) Pairing the wireless earphone (switched off)

Step 1: Activate Bluetooth function on your mobile device to begin pairing with earphone.

Step 2: Press and hold onto the power button until the LED light flashes.

Step 3: Connect to the earphone by selecting 'Valore BTS04' under the device list.

Step 4: Once connected, the LED light will flash blue every 4 seconds.

If password is required, enter '0000' or '1234'.

Note: If the pairing is not successful, please turn off wireless earphone first, and then re-pair again. After pairing is successful, paired devices will remember each other. Unless pairing information is deleted because of new pairing, no need to pair when using the next time.

If you want to pair the wireless earphone with other devices, please turn off Bluetooth function of existing source device, and pair the wireless earphone with the new device according to steps 1-4 mentioned above.

TROUBLESHOOTING

Issue 1: Earphone is unable to connect successfully to your mobile device

Problem 1: Earphone's battery is flat

Solution: Fully charge the earphone (3 hours) and retry connection with your mobile device.

Problem 2: Earphone not paired to your mobile device

Solution: Make sure that the earphone is successfully paired upon selecting 'Valore BTS04' in the device list.

Problem 3: Earphone and mobile device too far apart

Solution: Make sure that the earphone is within a metre range during pairing and connection.

Problem 4: Earphone is connected to other mobile device

Solution: Make sure that the earphone has already been disconnected before making a new connection with a new device.

Issue 2: Sound from the earphone is too soft or silent

Problem 1: Earphone's battery is low / flat

Solution: Fully charge the earphone (3 hours) and retry connection with your mobile device.

Problem 2: Earphone or mobile device's volume is too low

Solution: Turn the volume of the earphone or mobile device up to increase the volume.

Problem 3: Music track may not be audible

Solution: Make sure that the music track is of a playable format for the mobile device.

Problem 4: Earphone and mobile device might not be connected properly.

Solution: Repeat the connection step via Bluetooth again to make sure that it is connected properly and try again.
