UNDERSTANDING THE PRODUCT

- ① Volume down and previous track button
- ② Volume up and next track button
- ③ LED status indicator
- ④ Multi-functional button
- ⑤ Micro USB input

START USING THE WIRELESS HEADSET

1) Charging the headset (1.0A USB adapter to wall plug)

Make sure that the wireless headset is turned off before charging. Plug the micro USB cable into the charging port located at the bottom right side of the Bluetooth headset and connect it to a USB adapter (1.0A) to a wall plug. A orange LED indicator will turn on when the headset is charging. The orange LED indicator will switch to blue when headset is fully charged. To fully charge the headset, it will require at least 2 hours.

Note: Please charge the headset for at least 4 hours before first use. Please make sure that the headset is switched off when charging is in progress.

2) Pairing and connecting (switched off)

Step 1: Press and hold the On/Off button of the headset until the LED light flashes orange and blue rapidly.

Step 2: Activate Bluetooth function on your mobile device to begin pairing with headset.

Step 3: Connect to the headset by selecting 'Valore M12' under the device list.

(If prompted to enter a pin-code, enter '0000')

Step 4: Once connected, the LED light will indicate Blue and flashes slowly.

Note: If the pairing is not successful, please turn off wireless headset first and then re-pair again. After pairing is successful, paired devices will remember each other. Unless pairing information is deleted because of new pairing, no need to pair when using the next time.

If you want to pair the wireless headset with other devices, please turn off Bluetooth function of existing source device, and pair the wireless headset with the new device according to steps 1-4 mentioned above.

3) Re-pairing the wireless headset

Each time the wireless headset is turned on, it will attempt to connect to the last device it was paired with automatically (mobile device with Bluetooth function turned on).

The wireless headset will do as follows:

1. Connect to last connected devices automatically;
2. Be listed in the screen of devices as an output channel. Select 'Valore M12' as the output channel to play music.

Note: In some cases, the headset may need to be manually selected from your operating system sound or hardware output list.

4) Pairing the wireless headset with a second device

Repeat the steps shown in “Pairing the wireless headset” section to pair and connect with the second mobile phone.

Once connected, go into the Bluetooth function of the first mobile phone and manually select ‘Valore M12’ to connect to the wireless earpiece.

5) Wireless headset controls

a) Volume control

1. via Bluetooth device;
2. Wireless headset
 - Short press ‘Volume up and next track’ button to increase volume.
