START USING THE 2000MAH PD POWER BANK

1) Charging the power bank

Connect your power bank to the USB adaptor (2.0A) using the charging cable provided. When the LED indicator is all lit, it indicates that the battery is fully charged. Press the power button once to display battery percentage.

Note: Fully charge the power bank for at least 14-16 hours before first use. This is to maximise the battery performance and prolonging the life of lithium ion batteries. Recharge your power bank once every three months when not in use or seldom used.

2) Charging of devices

Connect your power bank to your mobile device's charging port using a 8-pin, Micro USB, Type-C cable.

TROUBLESHOOTING

Issue 1:

Power bank is unable to charge your mobile device

Problem 1: Power bank battery is flat

Solution: Fully charge the power bank and resume charging your mobile device.

Issue 2:

Power bank drains off quickly

Problem: Running multiple applications on your mobile device

Solution: Turn off all running applications on the mobile device and leave it to charge till full.

Extra consumption of energy would be due to heat produced during the charging of your mobile device.

Issue 3:

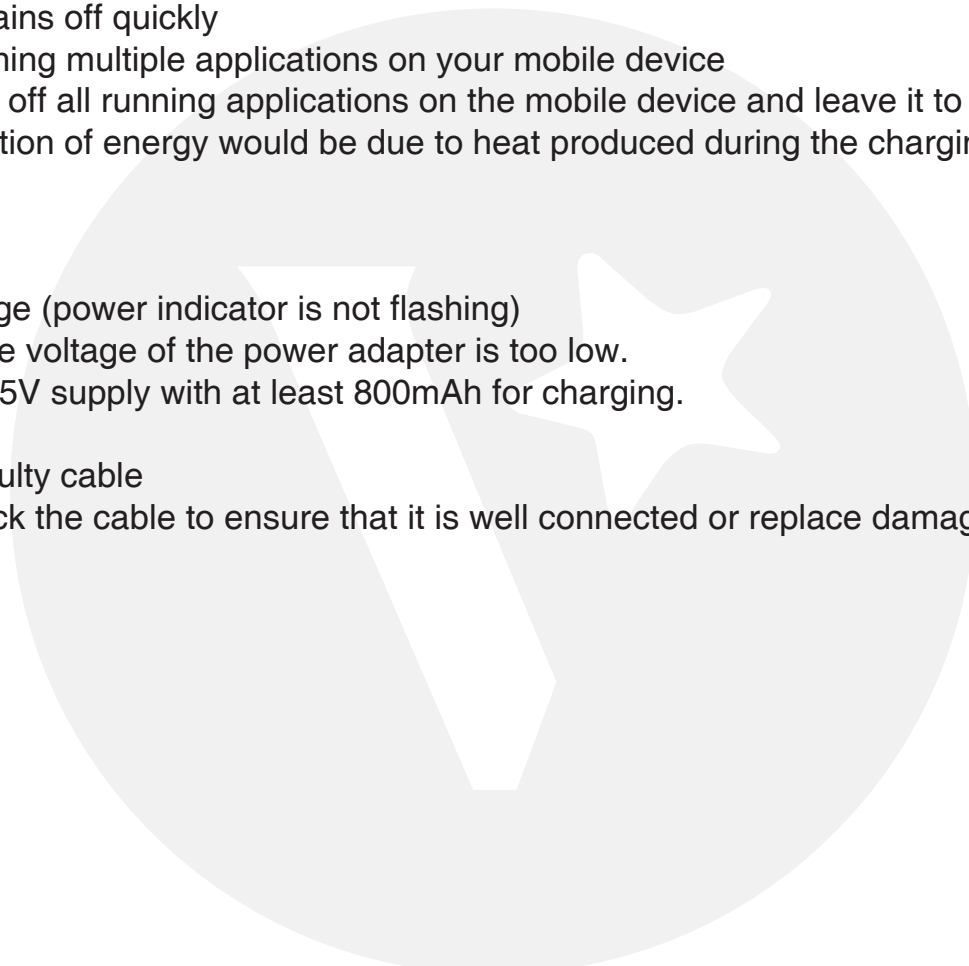

Unable to charge (power indicator is not flashing)

Problem 1: The voltage of the power adapter is too low.

Solution: Use 5V supply with at least 800mAh for charging.

Problem 2: Faulty cable

Solution: Check the cable to ensure that it is well connected or replace damaged cables.
