- Mat
- Car charger

UNDERSTANDING THE PRODUCT

- ① Fan speed adjustment button
- ② Negative Ion button
- ③ Power button
- ④ DC port
- ⑤ Fragrant compartment
- ⑥ Air inlet filter
- ⑦ Photocatalyst module

START USING THE CAR PHOTOCATALYST AIR PURIFIER

1) Powering up the Car Photocatalyst Air Purifier

Plug the DC cable into the charging port located at the bottom of the car photocatalyst air purifier and connect it to a car charging port. A blue LED indicator will turn on when the power button is being pressed.

2) Position the Car Photocatalyst Air Purifier

The recommended place for your car photocatalyst air purifier is the center of the car dashboard. Install it in the center of the car dashboard by placing it on top of the provided non slip mat and connect it to your car charging port.

3) Adjust the fan speed

Short press the fan speed adjustment button to adjust the fan speed. A blue LED indicator will turn on when the power button is being pressed.

4) Turn on the negative ion

Press the negative ion button to on/off the negative ion mode.

5) Add fragrant or essential oil

Remove the fragrant compartment from the car photocatalyst air purifier, drop 2-3 drops of the chosen essential oil / car fragrant on the sponge and insert it back to the air purifier.
