Slightly low battery

low battery

battery empty

Trouble shooting:

Problem: Cannot take photo or record.

Solution: Check if Micro SD card has enough space or is locked.

Problem: Automatically stop when recording.

Solution: Use a compatible high speed Micro SD card. (Class 10 and above)

Problem: Appear “file error” when replaying video and photo.

Solution: Micro SD card storage error, please format your Micro SD card.

Problem: Unclear video

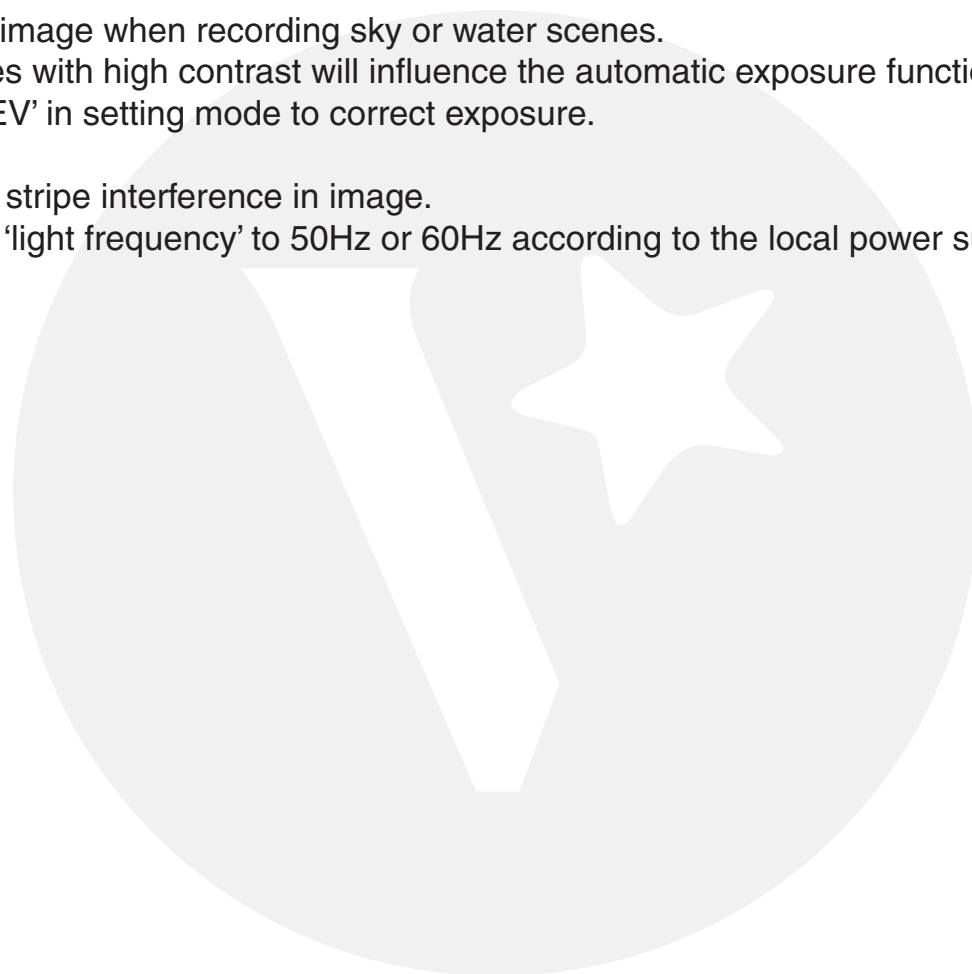

Solution: Check if there are any dirt or fingerprint and use lens clothe to clear the camera lens.

Problem: Black image when recording sky or water scenes.

Solution: Scenes with high contrast will influence the automatic exposure function of camera, you can adjust ‘EV’ in setting mode to correct exposure.

Problem: Cross stripe interference in image.

Solution: Reset ‘light frequency’ to 50Hz or 60Hz according to the local power supply frequency.
