- Dimension (L x W x H): 185 x 68 x 28mm
- Weight: 270g

Package Contents:

- Power bank wireless speaker
- Mirco-USB charging cable
- Auxiliary Cable

UNDERSTANDING THE PRODUCT

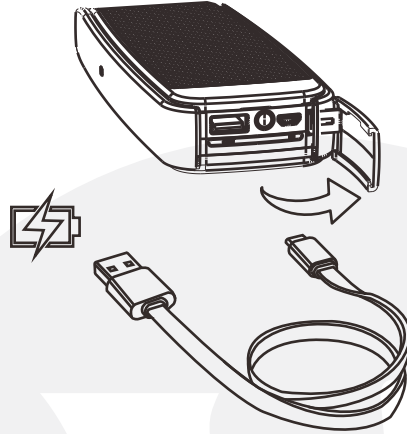

START USING THE POWER BANK WIRELESS SPEAKER

1) Charging the power bank wireless speaker

Open the rubber cover, connect the Micro-USB port with the recharge cord and its USB plug to an USB port power source. The 4 LED lights will light up and flash to indicate recharging of the power bank wireless speaker. When it is fully charge, all 4 LEDs will stop flashing and stay lit.

Noted: It take approx. 5~8 hours for every recharge. During recharging you cannot use the standard USB port for output charging at the same time.

2) Checking your power bank battery level

Open the rubber cover, press the charger switch once to turn on level checking.

4 LEDs are lit - 90% - 100%

3 LEDs are lit - 60% - 90%

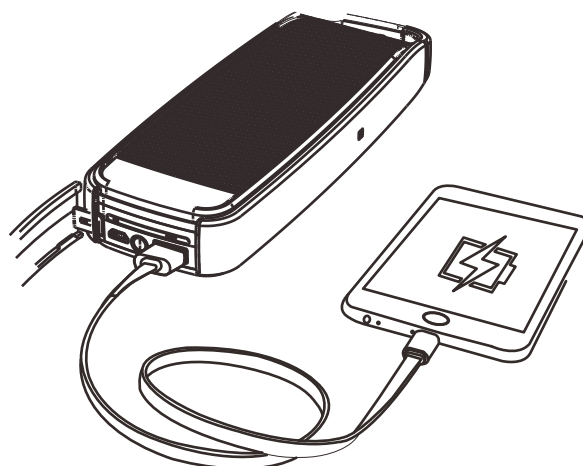

2 LEDs are lit - 30% - 60%

1 LED is lit and flashing - 10% - 20%

If power bank is less than 10%, it will turn off automatically.

3) Charging your device

Open the rubber cover, connect the charging cord (not provided) to the standard USB port of the power bank. Connect the other end to your smart phone device. Press the charger switch once to turn on the power bank and the output leds will lit continuously to indicate charging of your device. If the power bank do not detect output loading in approx. 30secs, it will turn off automatically. You then need to repeat the above steps to turn on the power bank again before you can charge your devices.

4) Pairing phone (manually) to power bank wireless speaker

- Turn on the speaker by pressing and hold for 3 seconds on the power button at the side, the blue LED is lit at the front speaker grille. You will hear a sweep tone indicates the speaker is ready. For first time using the LED will be flashing fast to show that it is now ready for pairing. Browse your smart phone bluetooth device list, select the one named 'Valore BTS449' to confirm pairing on your smart phone. You will hear a 'bloop' tone on the speakers which is sent from your phone. The speaker's blue LED will lit continuously. Pairing is successful.
- When you need to disconnect the speaker, you first switch off bluetooth function on your smart phone, the speaker's blue LED will flash slowly. You then switch off the speaker by pressing and holding onto the power button for 3-5 seconds, the pairing memory will be kept there. Next time you turn on the speaker, it will connect to your smart phone automatically when your bluetooth function is turned on less than 5m away.
- If you need to pair the power bank wireless speaker to a new device, turn off bluetooth function on your old device first. Then power on your new device's bluetooth function. Press and hold onto the power switch for 1-2 seconds until the speaker's blue LED is flashing fast and repeat steps as above.

5) Call pick function

When the power bank wireless speaker is connected to your phone with the blue LED lit continuously, whenever there is an incoming call, you can press the power button once to pick up. Press the power button once again will call.

6) Speaker - How to use/Control

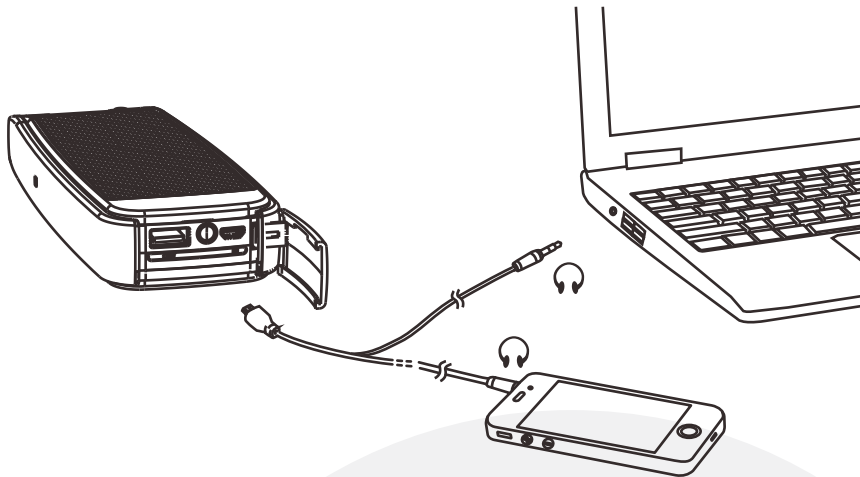

- Adjust volume - Operate from your smart phone/mobile device.
- Next/Previous track - Operate from your smart phone/mobile device.
- During music playback, press the power button once to pause, press again to resume.

If battery power becomes low, there will be some beeping alert sound during playback and the speaker's LED flashes red and blue quickly. Recharge the speaker as mentioned in the above section.

Note: Music can still be played while recharging the in-built battery

You can use the AUX-3.5mm audio cable to connect smart phone or other player devices for music playback. Whenever you plug in the AUX cord, bluetooth will be disconnected. You will then need to operate from the device connected.

Note: You will need to operate the smart phone to resume music playback when you disconnect the AUX cable and use it wireless again, and operate the speaker buttons as usual.

TROUBLESHOOTING

Issue 1: Speaker is unable to connect successfully to your mobile device

Problem 1: Speaker's battery is flat

Solution: Fully charge the speaker and retry connection with your mobile device.

Problem 2: Speaker not paired to your mobile device

Solution: Make sure that the speaker is successfully paired upon selecting 'Valore BTS449' in the device list.

Problem 3: Speaker and mobile device too far apart

Solution: Make sure that the speaker is within a metre range during pairing and connection.

Problem 4: Speaker is connected to other mobile device

Solution: Make sure that the speaker has already been disconnected before making a new connection with a new device.

Issue 2: Sound from the speaker is too soft or silent

Problem 1: Speaker's battery is low / flat

Solution: Fully charge the speaker and retry connection with your mobile device.

Problem 2: Speaker or mobile device's volume is too low

Solution: Turn the volume of the speaker or mobile device up to increase the volume.

Problem 3: Music track may not be audible

Solution: Make sure that the music track is of a playable format for the mobile device.

Problem 4: Speaker and mobile device might not be connected properly.

Solution: Repeat the connection step via Bluetooth/auxiliary cable again to make sure that it is connected properly and try again.
